

## Profile

I'm a passionate UI/UX Designer holding an Engineering Degree from Kathmandu, Nepal. With more than 3 years of industry experience, I specialize in creating products that offer compelling visual experiences, starting from user research to high-fidelity design. My interest in the design field was sparked during my bachelor's degree.

Beyond my interest in technology, I have a keen interest in traveling, drawing, playing video games, listening to music, learning new things, and embracing exciting challenges. Moreover, I consider myself a food enthusiast who enjoys exploring out different cuisines at all times.
